

STRIP TINNING AUTOMOTIVE

Environmental Policy

We acknowledge that the company's activities, products and services impact upon the environment. We are committed to ensuring that these environmental impacts are eliminated, minimised or controlled.

We will:

- Prevent pollution by reducing air emissions and releases to water & land;
- Use energy more efficiently;
- Fully control any hazardous substances on site;
- Minimise waste at source, encourage its recycling and effectively manage its disposal through the use of approved contractors;
- Comply with all relevant environmental legislation and other requirements to which the organisation subscribes;
- Consider impacts upon the environment when evaluating new plant, equipment or manufacturing processes;
- Educate and train our workforce to behave in an environmentally responsible manner, and ensure that employees and contractors working on our premises comply with relevant environmental legislation and company requirements;
- Continually improve our environmental performance through the setting of objectives and targets, supported by a management programme detailing how these objectives and targets are to be achieved.

The company operates an environmental management system in accordance with the requirements of BS EN ISO 14001.

This policy will be communicated to all employees and others working on the company's behalf and is available on request. It is publicly available on our website at www.striptinning.com.

Signed:

**Richard Barton
Managing Director**
